Dear Warner Bros. Studio recruitment-team,

Thank you for reading this paper version of my life.

I'm Florence, French-German freelance special make-up artist and costume maker with a Diploma and Master in Arts and a bilingual German-French secondary school examination.

I am a potterhead since childhood and wish to combine the experiences of this job with my previous professional and personal experiences.

Why better not ignore this CV :

I can...

- ... speak three languages (1 fluent, 2 native-languages, poor parseltongue)
- ... use those three languages easily in front of a huge audience as well as cameras (7 years)
- ... offer exhibition and museum experiences as a guide (2 months), therefore standing. Always.
- ... deal with clients : - Guidance of my customers in my professional life as a wig maker
- Customer care in a perfumery (8 months) and hairdresser (4 months)

- ... recite most of the Harry Potter Universe (20 years) and the "Wizard Collection"
- ... explain costumes and make-ups from a professional point of view (4 years)

- ... adapt to new situations easily (13 years of 'flexible' life)
- ... work for long days (13 years of costume, 5 years professional film- & photo make-ups)
- ... work full-time as I would move to London for this job
- ... meet you at the 18th of May, as I would attend fairs at that time

I am looking forward to hear from you and guide visitors through the Magic of the Warner Bros. Studio Tour - The Making of Harry Potter.
Feel free to contact me anytime.

Kind Regards,
Florence Heyer
